

An aerial photograph of a wind farm at night. The landscape is a patchwork of green and brown fields. Several white wind turbines are scattered across the area. The central part of the image is illuminated with a vibrant green light, highlighting the turbines and the surrounding fields. The sky is dark with some white clouds. The overall scene conveys a sense of modern, sustainable energy production.

EXPEDITE ONE.

**DAY AND NIGHT WE ARE THINKING
OF YOUR INDUSTRIES LOGISTICS**

COMPANY DETAILS

Expedite one comprises numerous international subsidiaries. Our base is located in the heart of the port of Rotterdam, The Netherlands but are represented directly in circa 30 countries. Expedite one operates its own branch offices in Europe, Near-East and Asia. Moreover we work with representatives and agency networks all over the world enabling us to provide our clients and partners a global reach when it comes to the movement of their cargo.

Expertise areas (Middle east + Afghanistan + CIS + Persian Gulf)

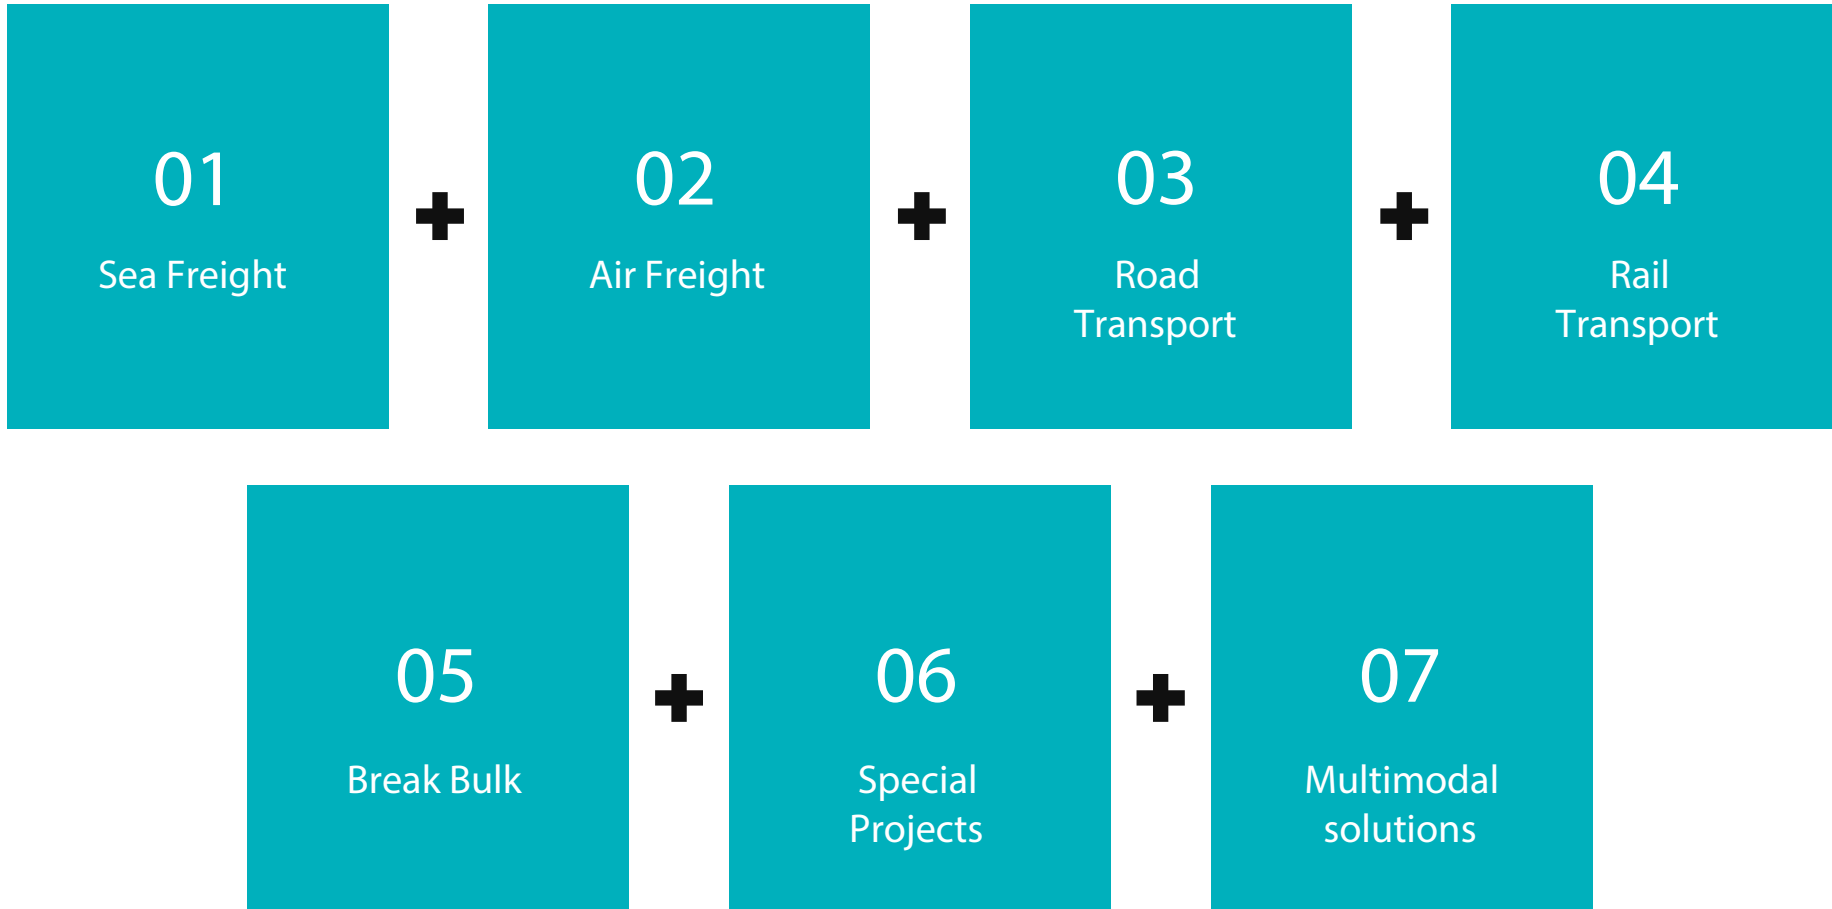

Expedite one is a specialist in serving the “long axes” across national borders. We offer tailored logistics solutions – for East-West traffics as well as for transports along the North-South axes. We are deeply rooted in many national markets, combining regional knowhow and international experience.

Through intermediaries in Eurasia and North Africa, we experience political and economic developments first hand. In such countries as Turkmenistan, Kazakhstan, Tajikistan, Uzbekistan, Afghanistan, Iraq, Yemen and Syria we spent years laying the foundations, and we have grown organically. Whether from Paris to Ashgabat or from London to Baghdad– for us, no distance is too far or out of reach.

Expedite one is the expert in international transportation along the “long axes”. For decades, we have connected The East with The West and visa versa, transporting goods between China, Central Asia, Europe and the USA – on the request of partners and clients as door-to-door services and FCL shipping solutions combined with international customs clearance.
